DÖRR VLOGGING KIT VL-5 With the DÖRR Vlogging Kit VL-5 you have everything you need to ensure optimal illumination and clear sound recordings in the home office, for home schooling, for FaceTime chats, for webinars or online video conferences

Beskrivelse:

With the DÖRR Vlogging Kit VL-5 you have everything you need to ensure optimal illumination and clear sound recordings in the home office, for home schooling, for FaceTime chats, for webinars or online video conferences. Your social media appearances on YouTube, TikTok, Instagram or Facebook not only look more professional, they will also sound much better !

The DÖRR VL-5 Vlogging Kit contains:

LED VIDEO LIGHT

The LED video light with 36 white LEDs provides perfect illumination for video blogs, selfies, beauty videos, product photography, etc. The brightness can be adjusted easily in three levels at the push of a button. The compact light is equipped with a universal hot shoe, which allows to mount the light either on cameras or camcorders with hot shoe or on your smartphone with the supplied holder. With the ¼" tripod screw at the bottom of the hot shoe, the LED light can be attached to the supplied table tripod and to any tripod which offers a ¼" screw mount.

The LED video light is equipped with a built-in Li-Ion battery, which you can charge conveniently via the USB port of your PC/Notebook/Laptop. The appropriate charging cable is included in the scope of delivery.

MICROPHONE

The supplied Directional Microphone optimises your sound recordings so that no annoying ambient noise affects the quality of your vlogs. The microphone offers a clear and balanced sound. With the universal hot shoe with ¼" tripod thread, the microphone can be screwed onto the supplied LED light or onto the table tripod. The supplied foam windshield effectively helps to reduce annoying wind noise when taking outdoor videos.

The microphone is operated by an AAA Micro battery LR03 1,5V which is optionally available from DÖRR:

Panasonic Alkaline Battery Pro Power Micro AAA LR03, 1.5V/4

SMARTPHONE HOLDER

The variable smartphone holder fits for smartphones with a width of 70 to 90 mm. The smartphone is simply inserted between two clamps. Furthermore, the smartphone holder is equipped with a universal hot shoe with a ¼" tripod thread, on which you can mount the supplied LED light, the microphone or the tripod.

TABLE TRIPOD 2-IN-1

The compact table tripod offers two functions: it can be used as a conventional table tripod with the perfect height for portraits, or when folded as an ergonomic handle. This way you hold the Vlogging Kit securely in your hand and soft and even pans are easy to manage.
